

CITY OF CORONADO

OFFICE OF THE MAYOR
1825 STRAND WAY
CORONADO, CA 92118

MARY HERRON
MAYOR
(619) 522-7322

January 25, 1993

Mr. Dale Winterquist
President
Falcon General Engineering, Inc.
572 Collyn Street
Vista, CA 92083

Dear Mr. Winterquist:

I wish to extend our sincere thanks to your company for the assistance provided by Chris Poma, Ken Ely, Donald Knapp, Norman Bradford, Lencho Gonzales and Juan Gonzales during the emergency repair of the city storm drain line on January 13, 1993.

This storm drain line conveys the majority of the storm water runoff from the Coronado Estates area of Coronado. A large break occurred in the discharge pipe on the morning of January 13, 1993. Additional heavy rain was forecast and major flooding could have resulted unless the pipe was expeditiously repaired.

Your company responded immediately and a crew was mobilized and working on-site within two hours. Your personnel worked diligently through the night battling the rain, fatigue and darkness to complete the repairs before flooding reached the adjacent houses. The storm drain was back into operation by 11:30 p.m. as the rising waters were within five feet of some of the houses.

The efforts your company and personnel put forth are greatly appreciated. Without your quick response and hard work, the city could have suffered extensive property damage. Thank you again.

Sincerely,

Mary Herron
Mayor
