Vista, Ca 92083

Subject: CONTRACT N62474-87-C-5759, REPAIR OF BERMS, FUEL
BUILDING 426, NAVAL AIR STATION, NORTH ISLAND, SAN
DIEGO, CA

Gentlemen:

I would like to thank your company for a job very well done on the subject contract. Your repair of the fuel farm berms was both expeditious and smooth, and reflects the overall professionalism and concern for quality within your company. Your outstanding efforts resulted in the project being completed two months ahead of schedule, while providing the government with a very high quality product. This quality is evident by the fact there were no construction discrepancies noted at the final inspection.

Your professional management, both in the field and with regard to contract paperwork, is a model for your industry. Your superintendents, Mr Dale Winterquist, and in his absence Mr Chris Poma, always showed great integrity, competence, and a pride in workmanship. When unforeseen conditions were encountered during the project, they worked with the government to resolve the problems in the most cost effective and expedient manner.

It has been a pleasure working with a professional organization like Falcon General Engineering. The quality of construction, integrity, and timeliness of your organization do not go unnoticed and are greatly appreciated by the Navy.

Sincerely,

A handwritten signature in cursive script that reads "Charles S. Smith".

Charles S. Smith
